Covid -19 Lack of Accurate up-to date Information for best practice and school procedures among: Parents regarding Covid 19 Staff Children Community	Yes	Lack of consistency regarding correct procedures will lead to the spread of Covid-19.	H	<u>Communication Education and Training</u> The Board of Management will develop a response plan for the prevention and mitigation of Covid-19 following a risk assessment of the school facility. This plan will highlight the measures necessary to protect the health and safety of staff in re-opening and modifying the work arrangements within the school. The staff will be properly consulted when developing and implementing the action plan for the prevention and mitigation of Covid-19 within the school and all staff will be informed about the measures being introduced, using specific risk communication and staff engagement approaches. Parents and pupils will be kept informed on an on-going basis.		<ul style="list-style-type: none"> All staff to receive necessary training prior to returning to work. Posters, web/ Aladdin messages to increase awareness of Covid-19 among staff and pupils. Weekly digital messages to parents/ staff in August regarding school safety procedures. Provide regular information about the risk of Covid-19 using official sources, such as government agencies (HSE, HSA, etc.) via the school website and Aladdin. (See plan for detail) FAQ section on website: Text alerts to new articles. Re-opening of school page. Plan and Emphasise the effectiveness of adopting protective measures especially good personal hygiene (Induction Day: 28th August) Provide specific training in the proper use of PPE for staff, where required (eg. SET/ SNA/ First Aid) Induction Day (28th August) Letter to be circulated to all parents before return to school FAQ section on website: Regular liaison / contributions via PA 	Mr Lohan/ Mrs Bleahene Covid Response Team Senior Management Mrs Bleahene Principal Principal Board A Bleahene

Covid -19	Yes	Spread of Covid-19 virus Illness	H	<p><u>Procedures to be followed with a suspected case of Covid-19</u></p> <p>The following procedures, adapted from the HSE and DES guidelines will be adapted in a suspected case of Covid -19.</p> <ul style="list-style-type: none"> Isolate the person and have a procedure in place to accompany the individual to the designated isolation area via the isolation route, keeping at least 2 metres away from the symptomatic person and also making sure that others maintain a distance of at least 2 metres from the symptomatic person at all times. Provide a mask for the person presenting with symptoms if one is available. He/she should wear the mask if in a common area with other people or while exiting the premises. Assess whether the individual who is displaying symptoms can immediately be directed to go home and call their doctor and continue self-isolation at home. Facilitate the person presenting with symptoms remaining in isolation if they cannot immediately go home and facilitate them calling their doctor. The individual should avoid touching people, surfaces and objects. Advice should be given to the person presenting with symptoms to cover their mouth and nose with the disposable tissue provided when they cough or sneeze and put the tissue in the waste bag provided If the person is well enough to go home, arrange for them to be transported home by a family member, as soon as possible and advise them to inform their general practitioner by phone of their symptoms. Public transport of any kind should not be used If they are too unwell to go home or advice is required, contact 999 or 112 and inform them that the sick person is a Covid-19 suspect. Carry out an assessment of the incident which will form part of determining follow-up actions and recovery. Arrange for appropriate cleaning of the isolation area and work areas involved. 		<ul style="list-style-type: none"> Ensure that all members of the team are familiar with the procedure. Ensure that cleaning after suspected case is carried out according to guidelines. This will have to be communicated to cleaning contractors. 	School Principal School Secretary School Deputy All Staff

Covid -19	Yes	Spread of Covid-19 virus illness	H	<p style="text-align: center;">Covid-19 Cleaning Cleaning a space after a suspected case of Covid -19</p> <p>All cleaning will be undertaken in line with DES and public health guidance.</p> <ul style="list-style-type: none"> ✓ It is recommended cleaning an area with normal household disinfectant after a suspected coronavirus (Covid-19) case. This will reduce the risk of passing the infection on to other people ✓ The area should be kept closed and secure for 72 hours (if possible) for cleaning as the amount of virus living on surfaces will have reduced significantly by 72 hours ✓ For cleaning purposes, wear a face mask, disposable or washing up gloves. These should be double-bagged, then stored securely for 72 hours and then put with the regular rubbish after cleaning is finished ✓ should be double-bagged, Using a disposable cloth, first clean hard surfaces with warm soapy water. Then disinfect these surfaces with the cleaning products you normally use. Pay particular attention to frequently touched areas and surfaces, such as toilets, banisters on stairwells and door handles ✓ If an area has been heavily contaminated, such as with visible bodily fluids, from a person with coronavirus (Covid-19) consider using protection for the eyes, mouth and nose, as well as wearing gloves and apron ✓ Wash hands regularly with soap and water for 20 seconds and after removing gloves, aprons and other protection used while cleaning ✓ Public areas where a symptomatic individual has passed through and spent minimal time, such as corridors, but which are not visibly contaminated with body fluids can be cleaned as normal has come into contact with must be cleaned and disinfected, including objects which are visibly contaminated with body fluids ✓ All cleaning will be undertaken in line with DES and public health guidance. 		The cleaning contractors need to be aware of the cleaning procedures outlined in the controls and follow them carefully. .	Board	

			<ul style="list-style-type: none"> ✓ Use disposable cloths or paper roll and disposable mop heads to clean all hard surfaces, floors, chairs, door handles and sanitary fittings, using an approved and recognised detergent and disinfectant in line with the manufacturer's instructions for dilution, application and contact times ✓ Disinfectants used should be effective against viruses. ✓ Avoid creating splashes and spray when cleaning. <ul style="list-style-type: none"> ✓ Any cloths and mop heads used must be disposed of and should be put into waste bags as outlined below. ✓ When items cannot be cleaned using detergents or laundered (upholstered furniture or mattresses for example) steam cleaning should be used ✓ Any items that have been heavily contaminated with bodyfluids and that cannot be cleaned by washing should be disposed of ✓ If possible, keep an area closed off and secure for 72 hours. After this time the amount of virus contamination will have decreased substantially, and cleaning can take place as normal. <p>Laundry</p> <ul style="list-style-type: none"> ✓ Wash items in accordance with the manufacturer's instructions. Use the warmest water setting and dry items completely. Clean and disinfect anything used for transporting laundry with your usual products, <p>Waste Management</p> <ul style="list-style-type: none"> ✓ Waste should be put in a plastic rubbish bag and tied when full ✓ The plastic bag should then be placed in a second bag and tied ✓ It should be put in a suitable and secure place and marked for storage until the individual's test results are known ✓ All waste should be stored safely and kept away from children. You should not put 			
--	--	--	--	--	--	--

				<p>waste in communal waste areas until negative test results are known or the waste has been stored for at least 72 hours</p> <ul style="list-style-type: none">✓ If the individual tests negative, the can be put in with the normal waste. <p>If the individual tests positive, then store it for at least 72 hours and put in with the normal waste.</p>
