

Mr. Dolan's 5th Class - Home-school activities

15th to 10th of June 2020.

Hi everyone.

We are getting extremely close to the end of the school year. Where has the time gone??? I would like to thank everyone for being so patient and understanding in these difficult times, and to say well done for keeping up with the work.

This week's theme will be '**STEM Week.**' STEM as you know is **Science, Technology, Engineering and Mathematics** and it is one of my favourite areas as a teacher. I assure you; you will enjoy this week's theme. As you have no assigned daily activities this week, I encourage you to participate in the daily STEM activities instead. As always you can send me videos and pictures via email - creaghnsdolan@gmail.com and I will post them to Twitter and if you wish I can share them on the ClassDojo class story. As usual, please keep a close eye on ClassDojo and on the distance learning website for the activities in relation to this.

As I know everyone is getting bored of the daily activities, all that I am asking you to do this week is to try the 'Design a Theme Park' activity. I will send the activity on ClassDojo on Monday morning. If you cannot print it, you could always do it in you refill pad or just on some blank A4 paper. You have all week to complete it, so take your time and enjoy it!

You are, of course, free to do some daily Mental Maths and English in Practice if you wish. Also, the **Primary Planet** resources on the school website are great fun. As always, I will be online every day if you have any questions, queries, feedback or even if you just need a little help.

Most importantly of all, I encourage you to get out and get plenty of exercise - mens sana in corpore sano!

Have a great week.

Mr. Dolan.
