### Music

Mood music

This is an excellent way to introduce the kids to different genres of music and the many emotions linked to them. This will

## Resource Bank (20/04/20) Theme - People Who Help Us

help children connect actions with emotions.

### ***You will need:***

- A collection of songs depicting different emotions - anger, happiness, sadness, and silliness
- Music player
- Space to dance

### ***How to play:***

1. Make sure you pick songs that are appropriate for the child's age.
2. Then explain the game to the kids and ask them how they would behave when they are happy, sad, cross, etc.
3. Then tell them that they have to dance according to the mood of the song, which you will mention before playing it.
4. So for a happy song, you want the kids jumping and moving energetically, while for a sad song they might simply sway.
5. They could dance silly or aggressively (not violently) when they are angry.

In short, whatever is the mood of the song, the kids have to act it when they dance.

### **Musical limbo**

Limbo is a game that tests how flexible the body is. Add music, and it becomes all the more fun. In musical limbo, you don't just walk under the beam. You have to go dancing from under it!

### ***You will need:***

- A long stick or beam
- Music player
- Space to play

### ***How to play:***

## Resource Bank (20/04/20) Theme - People Who Help Us

1. Have two adults hold the beam at a height such that the kids can pass from under it without a lot of effort.
2. There are two simple rules to this game: the kids have to dance to move, and they should not touch the beam.
3. Play the music and have the children move from under the beam, one after the other.
4. Whoever touches the pole or fails to dance while under it is out of the game.
5. After one round, lower the beam a little and repeat the routine.
6. Do it until there is only one kid left. The kid who manages to last till the end wins!

### Drama

- Mime - Mime your favourite animals and have your family guess what you are
- Dress up as your favourite character and re-create a scene from the movie/TV show they are in
- Create a mask based on one of your favourite characters or even one of your family members
